

Older Adult Services

Our national reach and expertise in care for older adults positions VOA at the forefront of aging services.

▶ **315,000**

seniors served through community outreach programs

▶ **8,000** older adults

provided with skilled nursing care in assisted living programs

▶ **30⁺** senior living communities

providing independent living, assisted living, and memory care

WHAT WE DO

Senior Housing

VOA is one of the nation's largest providers of quality, affordable housing for older adults. Most of our housing communities have service coordinator programs to enhance the quality of life for residents.

Meal and Transit Programs

Through Meals-on-Wheels and group meal programs, as well as transit services, VOA ensures that older adults in the community can maintain their independence.

In-Home Care

VOA provides in-home supported care to patients through our PACE programs. We also offer companion services, home repair services, and protection against fraud and abuse.

VOA offers a continuum of services that extends to older adults and disabled people requiring long-term health support, including nursing care, assisted living, memory support, home health care, rehabilitation, and more.

At VOA, we provide housing for seniors who want to live independent lifestyles so they can thrive and age in place. Our older adult residents deserve the quality of life that they desire, and our commitment to service-enriched housing offers them just that. We encourage seniors to be healthy and active through a host of supportive services.
